

Hidden Deck Fasteners

# DECKMASTER®

## HIDDEN DECK FASTENING SYSTEM

The strongest longest lasting decks are built using Deckmaster brackets. Its unique undermount design uses fasteners at two angles, virtually eliminating deck racking and shearing. And because Deckmaster is completely hidden beneath the deck boards, there are no exposed screws or nails on the deck surface. As such, moisture won't pool around and enter deck boards and joists—the primary cause of deck rot and fastener pop-ups. Deckmaster is the best hidden fastening system available.

- ▶ 50 year warranty for powdercoated brackets
- ▶ ACQ compliant
- ▶ Outstanding corrosion resistance
- ▶ LOX® 2 recess for a sure driving experience

22-1/2" Long

Deckmaster Powder Coated Bracket and Screws

Deckmaster decks are built to last

Grabber's Deckmaster Fastening System is designed to hide all fasteners beneath the deckboards making the deck stronger and more durable.

With Deckmaster no moisture can enter deckboards or joists, the primary cause of deck rot and nail and screw pop-ups.

Stains and splinters around fastener holes are eliminated because there are no exposed screws or nails.
